No more Scab in Sheep.

The undersigned an old sheep farmer in the south of this province after many years of study in the pernicious infirmity of the scab, has at last discovered an infallible remedy against a sickness that in the body water it generally breaks out like a storm requiring all the remedies that to this time have been discovered.

This specific as simple in its application as great in its result is preferable to all invented until now, it is cheaper than tobacco, and free from poisonous substances contained in all other remedies before invented.

With only one ounce of my specific there is sufficient for the Scab of 800 or 1000 sheep, and at the low price of $ 160, I will facilitate all sheep farmers to recover their sheep in a perfect state of healthiness; to make known this remedy and to induce farmers to prove it, I have determined to sell small packages of one ounce at $8 which I hold at every one's disposition who wants to prove its infallibility. Instructions for its application will be given in the deposit of specific against the scab.

The first English Depot establishment of Buenos Ayres.

William Gibson before leaving for England begs leave to return his sincere thanks for the kind and liberal support he has received from his friends in town and camp since his commencing business in 1859 and hereby intimates that he has disposed of his business and stock to Mr. PK. GALBRAITH, and solicits a continuance of their patronage in favor of his successor who will in every respect confirm the business in all its branches upon the same principles as hitherto, receiving regular supplies of first class goods from England Ireland and Scotland suitable for families in town and camp. Parties who have my claims against me will present their accounts and those indebted to me will confer a favor by an immediate settlement.

WILLIAM GIBSON.
A 28 K

Referring to the preceding advertisement, I beg to intimate to the inhabitants of Buenos Ayres and those residing in the camp, that, having purchased the stock &c of the above establishment the business hitherto carried on by Mr. Gibson will be continued by me on the same principles, from MONDAY THE 4th MAY, whereby making it my constant study to have always on hand the best class of goods, suitable both for town, and camp were I imported direct from the manufacturers. I hope to merit a continuance of the patronage re-ceived by my predecessor.

I also intend extensive sales will be sold off at a considerable reduction on former prices to make room for new goods shortly expected from England.

Consumers of Ink.

The undersigned begs to inform the highly respected community of this city and the country, that he has established an

INK MANUFACTORY,

No. 118 Calle Victoria.

And is prepared to sell as good Ink, as any made in this part of the globe, and warranted to retain its beautiful jet black color which it has at the moment when wrote, at 50 % less than the same can be bought at any other house.

People under the impression, that they pay their $20 mje. for a quart bottle of English Ink, are down the range indeed, that most of the Ink sold by English is made in this country, and imported upon the public as such. But I am not induced to put my own name to this labeling, being fully convinced that my Ink is of a much superior quality, and 50 cases more virtuous than most of the Inks.

I.—It is of a very rich black at the moment when used.

II.—Retains its color.

III.—Runs not from off the pen.

IV.—A preserver of the eyes to those, who have to make much writing, and preserves the eyes of future generations eyesight, to see what they have written.

I for the reasons, explained, I have that may put your name generally entertained against the Ink Manufacturers will be laid aside, and all I ask for, is to try the same which will be to the benefit of the buyer, and the country, in assisting Home industry.

N. B.—Orders left at the office will be punctually attended to and delivered free of any charges.

TUESDAY, MAY 19, 1863.

CONGRESS-DEPUTIES.

The Chamber met yesterday, and M. M. Sarmiento and Daract took their seats, both for the province of San Luis.

Mr. Wheelwright's contract, as ratified by the Senate, was then laid before the House, and submitted to the committee of Finance. The Military committee gave their report on a petition by the widow of Major Ayrey for indemnity for the loss of her property in the Provincial Government. He further appeared there were some inaccuracies in the petitioner's statement.

Major Ayrey is represented to have spent 20 years service to the cause of liberty, entering the army in 1811. In reality he served 10 years and groaned under the weight of tyranny for his pains, leaving a very discontented life on account of Rosas's administration.

D. Pastor Obligado thought the account pension sufficient, as it would be impossible to compensate every one who for having joined the insurgents to Hilario Rosas's government, and he therefore proposed to pension half the republic.

Sor Marmol was against the recommendation of committee, as he thought it a good scheme that the widow of a patriot should be refused a Major's pension, when so many scoundrels were enjoying the full pay of Generals. Also this was the first cause asked of the Argenti ss Congress, since national incorporation, and could not well be rejected.

S. Alsina admitted that several ruffles overturning the income of Argentine General, while a young man, who lost his leg at Pavon was dying of hunger and had to advertise in the "Diario" for relief. This was a most unbecoming anomaly of the times, and we should soon have to reform the military list.

Being put to the vote, the report of the committee was adopted by 31 votes to 7, on 1st reading. After a brief colloquy it was read a 2nd time, the voting being as before.

The Chamber rose at 2 30.

The Cordoba railway contract will probably be despatched by committee, and come into discussion on Saturday. As we before stated, there is an anti-foreign faction determined to combat the bankruptcy which will have the effect of delaying but not defeating its ratification in the lower house.

The Santore sit to-day at noon.

THE FOREIGN MINISTERS.

With reference to an article which appeared in the "Nacional" beside "Corresponsal del Cuerpo Diplomatico" last week which was also reprinted in the "Tribuno" under the name of "La Diplomacia in campagna" on the 16th and 17th inst.

We are informed on reliable authority that the facts of the case have been so distorted and misrepresented that it is hardly possible to recognize them, or draw of truth in them. It must however excite surprise that a Govt. which pretends to be cultivating relations of friendship with the European powers, and on which their own commercial prosperity depends should allow a number of its own subordinates to the Govt authorities to become a matter of publicity.

[Guaranteed.]

—

FOUL PLAY.

The narratives respecting the late diplomatic visit, published in those mendacious and insolent journals called 'Tribuna' and 'Nacional' have no doubt afforded infinite amusement to those of their readers who are willing to learn the truth. It is epity to molecvive such despicable pu ticians, but we are bound to vindicate the matter, for the satisfaction of our foreign brethren.

On Friday, the 15th instant the Ministers of England, France, Portugal, and Italy, proceeded to the National Government House, and waited on the Secretary for Foreign Affairs. They found Sr Elizalde in his bureau, no clerks or hangers on being present. The interview related to Flores' invasion of the Banda Oriental, and was strictly confidential. We have, nevertheless, reliable authority to state that the imaginary conversations between MM. Elizalde and Becour are *total y and absolutely false*. Nor would the foreign ministers have listened for a moment to such disrespectful language as is said to have been employ.d towards the French Emperor.

At the same time it is certain that no one was present or could have cognizance of the interview unless Secretary Elizalde and the Foreign agents Whence proceeds, therefore, the mutilated & bombastic account published in the papers? We cannot suppose that the Minister of France or Italy would hold themselves up to such ridicule as to promise to present to town that the Oriental' article comes, directly or indirectly, from a member of the cabinet. We may congratulate our foreign friends that during the interview no insult was offered to their nationalities, the only grievance being the subsequent mock-report in the rabid anti-foreign journals.

It remains to be seen whether any serious notice will be taken of the audacious press insults, and although we decline advocating the prudence of the course taken by our foreign ministers, we cannot condemn it as most decided, for the breach of faith which seems to be brought home to our Argentine Republicanct.

The late resignation of Hector F. Varela will believe another doubtful subject, and we have heard some active gentlemen ridicule the idea of such a document. Only a month ago we understood the Government gave "our absent friend" his choice, to continue Tribuna" correspondent or take the position of Consul-general. Since then Sr Varela has not had time to reply to the proposal. French Cabinet called Sr Caudeau Varela) by refusing to admit him at Court. If he really resigned why not publish it among the official documents? It is indeed difficult to resign, but one has never enjoyed, and as Mr. Varela never was admitted Argentine Consul general at Paris, never having had his diploma counter signed, he cannot have been so absurd as to resign a post which he yearned to obtain, with 'great success.' Nonsense you must believe.

We can make allowance for the clamor which would proceed from the man of ex-office mind from admitting the right of sovereign Englishmen, Americans, and French, that the Emperor was perfectly right in sending him about his business, and that we are singularly unlucky in all our diplomatic relations on the other side of the Atlantic.

—

AMERICAN CLAIMS.

A short event recently appeared in this paper touching the claims urged by the N.American minister, in favor of the White and Atkins families. We have great pleasure in contradicting said paragraph, as relates to the information of incorrectness remarks by the Hon. Mr. Irle. The mistake arose from an official publication in the *Nacion Argentina*, purporting to be the Chief's report. The publication document had no date, which circumstance at once invalidates it, but was genuine, having been passed some 4 months ago. It actually charges the American minister with interference in improper mess.

Nevertheless the Argentine Government deemed the Fiscal's report so little worthy of notice that they appointed a committee to take into consideration the claims of White and Atkins which that official had declared inacceptable through foreign mediation. The committee is actually engaged in its work, and it is remarkable that the very ill-tempered note of the Fiscal was suppressed until it had grown out of date, and finally published as if by mistake, or to hurt the susceptibilities of our esteemed American representative.

GOOD NEWS FROM THE INTERIOR

—

SANDES FOUND.

—

It affords us great pleasure to state, from two members of Congress, who arrived from Rosario on Sunday, we learn that Col. Sandes is not dead, but on the head of his men on the frontiers of San Luis.

Gen. Rojo has at last arrived out, and is now head man in the Provinces, and Mitre has informedus is quietly living at his estancia.

Gens. Taboada and Alvarez, are marching on Rioja. Confidence is greatly restored since Gen. Rojo arrived, and it is confidently hoped that tranquility will be very soon established.

The Rosario people have made the amia city to call us Federals, for giving publicity to a rumour which in our province's months we can expect nothing else from such a quarter. We are masters of Revolutions, Regenerations, invasions, and all such 'Tribuna' nonsense. We cook up no news, while our opponents when there is any room for believing it. All the Entre Rioans and Monte videan papers gave circumstantial accounts of a battle at Fraile Muerto, which only attested that such was the rumour.

However, it is beginning to be admitted fact in B. Ayres that any one who does not write for the 'Tribuna' must necessarily be a federal. The 'Standard' is the only paper that stands on 'Tribuna' nonsense.

We extract the following items from the "Ferro carril" of the 16th inst :

"By the diligence which arrived yesterday, we have received papers from San Juan, San Luis, and Mendoza: the news is scanty: But from passengers arrived in the city this diligence, we learn that the bandits are prostrated and scattered; the rising of the provinces en masse frightened the Chief of the Union. The Chief Felipe Varela have cleared out for Alcaun. Sr Sarmiento, Governor of San Juan, is at his head quarters at Concoyo.

Sandes has joined his regiment.

They arrived in San Juan, 25 prisoners when in 4 months again, amongst whom is the Indian fray, Daniel Clargolanes, who, it said, was chaplain to Puebla's notorious band. Dr. Jose Manuel Lonsdale, also was Cuevro's secretary, is prisoner in San Juan.

From a Rioja letter, published in the same paper, we extract the following :—

"Every man in Rioja is with arms in his hands. The people now being the country. Don Daniel Socal, Don Onorato Moral, and Dn Francisco Sotomayor have been assassinated by order of the Commandante Severo Chumbita, of the department of Arauco.

—

THE COLON.

Sunday night, the Colon theatre was lit and crowded to overflowing, there not even standing room to be got. The President and family occupied their private box. The ladies mustered unusually strong, and our legislators and Ministers seem to take an interest in Zampilleostation. The Torre. Co.made their debut which was an additional incentive, "De Potencia a Potencia", was well performed, and drew great applause.

Owing to a light indisposition, Mr. William Lore was unable to perform the Zampilleorotation feat, but the brothers Chiarini and George performed the company with some of those astonishing feats, which baffle a description as at Lavigne. The little comedy Alegria and the Spanish farce "La familia improvisada" excited roars of laughter. Altogether, the entertainment was first rate, and tonight we were disappointed at the omission of Zampilleorotation, "the company cannot well afford to lose a night's receipts, we are sure.

We are happy to state that Mr William Lee is not dangerously ill, but only a little indisposed from the effects of a cold.

—

EDITOR'S TABLE.

It is rumoured that Flores is very sick, and has been removed to the Brazilian frontier. The estancias are perfectly deserted in many places not even the owners have stopped to guard their property. Several gentlemen have come to Buenos Ayres, for the purpose of sending British subjects over to protect their interests; the state of Banda Oriental is perfectly lamentable, and it is to be hoped that some one will interfere to put a stop to the plunder going on.

In answer to several letters received from the country, we may state that the Mail which left Liverpool on the 4th April, and the Mystery from the same port on the 30th March, both bound for Buenos Aires.

Captain Price, of the Esmeralda, is the man of the day. We read in the dispatch of the Capt of the Port of Rosario, that but for Capt. Price's exertions the cargo of a vessel which had drifted on the shore would have been lost. Sr Commingues also is highly spoken of, no doubt if, in the whole Argentine Republic, there is a more efficient officer than the captain of the port, of Rosario. Nothing transpires in the Parana without his knowledge. We congratulate Gen. Mitre on having such an officer.

We have received the following letter from a Scotch gentleman, of much experience in this country. We publish it, in order that Governor Sauveterre may see that the Standard pays that even in distant Scotland, the 'Standard' has friends, men of capital and enterprise, ready to create a new industry—the cotton plant—and your money stuck on public abuse, especially that on the high price of Cotton, which is the result of Mitre's mistake, and if persisted in, will put back the population of these immense camps for a number of years, for the present price of cotton (if procurable) does have not the means to purchase, without selling all their stock : "que vamos a hacer con campos sin vacas? Without a trust your immense camps will have their effect. I have made three remarks from an experience of more years than I care to count, and fully 70 leagues from the city, and beyond the frontier, 40 leagues further out, when I lost, one fine morning, upwards of 5000 sheep, all by one fell swoop of the Indians, and three of my peons killed, among them an Englishman.

Yours very truly

D. MCINTOSH.

We have very little news about Flores from the Banda Oriental. In Montevideo, it is currently believed that Flores will soon be driven from the frontier for some time, as it is no easy business to catch him in so open a country. Nothing is to be no doubt, whatever, that the most of his men have left him, and that a wholesale sweeping of cattle into Brazil is going on.

We hope to have an open company in Buenos Ayres. We don't feel the want of the opera so much at present, thanks to Messrs Petrolezzi and Flores, who have given us a most excellent, but we believe that, by that time these two rowdies will be disposed of, and we hope for better things. Artists are about to leave for New York, per first chipper, we shall be rather dull here, if Mr. Pestalardo does not succeed.

We have not heard how the money case was decided on last Saturday, but we hope it has been to our kind. we believe, ever tried here, and none of our great lawyers were slightly put about to find a precedent, in Judges or Juries.

The report published in the "Tribune" respecting Major Richard, and his friend William Lore was made in Nopa- lon is we consider altogether without foundation, as we received a letter some from this gentleman by last packet denying the entire statement, and speaking of the procession &c, he makes no mention whatever of the occurrences which appeared in the Tribune, therefore we regard the whole statement as a sham of Mr. Varela's.

Last night the Chascomus Railway had a meeting before the Provisional Councilors. We have not heard what amendments were proposed, but are sanguine that objectionable articles will be modified.

We forwarded per French mail, at our private expense, a copy of President Mitre's message published by us in English, to every Argentine consul, vice-consul or agent unlicensing in Europe, North America, also, to the principle Reading rooms in the United Kingdom, and to all our foreign subscribers, and the newspapers which exchange with us. We hope President Mitre and his Ministers, and also the members of the "Crockery Club," will take note of what the "Standard" in he Standard offices are doing for the country, in Europe.

NEW LAWS.

Every one admits the necessity of New Laws; some think that they are required on the Banks question, others that the Custom-house, but we on Revolutions. Not that we should seek to introduce any measure prohibiting Rebellion, Heaven forbid; but we are anxious that the multitude should without studying Dr. Elizalde's new edition of Puffendorf, know at a glance what constitutes in the Fiero Plato.—A "Legal Revolution."

Any invension took place the other day, and the leaders started in a new built from this city. Unfortunately, not knowing the "lex non scripta" of the Republic, we regarded the matter as illegal. After persuading every foreigner in the country who understood English, that such things were carried on in the extreme, and that all parties connected with the affair, are the very worst enemies of this and the adjoining countries: we find out our mistake. To simplify the common law on such subjects let us enact statutes, so that it can be clearly understood. what constitutes a legal revolution within the meaning of the act.

Preamble.

Whereas the present state of affairs is objectionable, and serious difficulties are experienced in increasing revenue by processing disturbances. And whereas numerous highly talented individuals are anxious to get into office, in order to free themselves from slavish occupations, which owing to the present state of affairs they are actually reduced to, And whereas in some of the most enlightened countries in the world, Revolutions are in vogue. Now be it enacted, that from this day forth, all rebellions, rows, or disturbances of any description whatever, shall only be regarded as genuine when organized on the following bases:

Art. 1.—When two or more newspapers, published in the vernacular of the country where the Leader of the intended revolution resides, approve of the plans of the row, and when any high official of a Government where such leader dwells, shall openly sy mpathize with the proposed disturbance, it shall be lawful for three men to invade any country, territory, or possession, gover ned or ruled by a set of white men.

Art. 2.—All peace disturbers whatever, during the row, shall be of a character favorable to the revolution so begun, and any parties who shall refuse to perform the usual explanations of the Government of the country from whence such leader or leaders departed, shall be sent about his or their business, and shall be abused in the journals of said country for so doing.

Art. 3.—It shall not be lawful for any foreign power or Government to meddle in the revolution be so published, and no respectable natives shall subscribe or hold any intercourse whatever, with such foreign powers, as shall profess such anti-revolutionary principles.

Art 4.—So long as any wrongs are murdered, revolutions began unjustly, or that this act shall be deemed legal, and all Rever Plate Governments are responsible not only for their own, but for foreign revolutions.

Art. 5.—It shall not be lawful for any Government to interfere, but a strict neutrality shall be observed, and the citizens are prohibited from lending money or arms, unless there is reasonable ground for believing that the revolution they have already broken out, or are about to break out.

Art. 6.—Any party save a foreigner, shall be at liberty to start a rebellion, row, revolution, or disturbance, upon complying with the terms and conditions of this act.

TUYU.

May 19th.

To the Editor—Sir, Generally speaking, there are seven crafts on the frontier every Monday, viz—Pier del Rio, Catalina Molinari; Juana, Diana, Max- imo, Teresita, two Hermanos, bel ong- ing to Sres Rubio and Co.

The length of voyage is variable, depending on wind and tides, but they sometimes are only 24 hours on the Rio Salado miles, a second only to England on business connected with that line.

THE THEATRE.—Yesterday we passed at about 11 o'clock by Cohan and saw about half a dozen ladies at the door waiting the ticket-seller to pass to the pensionate May house.

Those facilities are in great demand for those days.

NORTHERN RAILWAY.—Mr. Zimmerman, the manager of the railway has given 2 2.0 0 to the native so- ciety of Beneficiosis, 2,000 to the British Hospital and one hundred to the Municipality of Belgrano from fines imposed for walking across the line.

BRAZILIAN TRADE.—According to official statements presented by the Custom-house in this city the imports during the financial year 1 61 1862 into Buenos Ayres have been 38 vessels with and aggregate amount of 1369,924 patacons value.

The exports from Buenos Ayres to Brazil have been 49 vessels with an aggregate value of 1,021,824 patacons leaving a balance of 7 18,28 patacons against this country.

LOCAL EVENTS.

THE CATHEDRAL.—We are glad to hear that the altar relief in the Cathedral will be unveiled for the present month of May.

This work has been in construction over six months, and it is to be hop d that it will answer the expectations of the public.

STREET PAVEMENTS are being carried on with activity; and the Superior is very nearly terminated in its whole length and now we perceive the cable Cerrito is confined to about 4 squares, and about 2 squares leading to the Northern end of the square becoming very good.

THE RECOLETA.—A part of the buildings in the cemetery are being repaired.

It is well worth the price of taking some measures to restore the mutilated of the grave diggers, and the system should be made more effective every interment they build. A lot of the relics of the deceased a get my clothed and it is almost a shame to inter them in the coffins with a shroud.

SOUTHERN RAILWAY.—The original concessionaire of the Southern Railway, Edward Lumb is going to England by this mail, and we understand on the occasion to Mr. Henry A. Unett.

We hear Mr Simpson, Engineer of the Gas works and Mr. Simpson of the Railway Offices, intend going shortly to England on business connected with that line.

THE THEATRES.—Yesterday we passed at about 11 o'clock by Cohan and saw about half a dozen ladies at the door waiting the ticket-seller to pass to the pensionate May house.

Those facilities are in great demand for those days.

NORTHERN RAILWAY.—Mr. Zimmerman, the manager of the railway has given 2 2.0 0 to the native society of Beneficiosis, 2,000 to the British Hospital and one hundred to the Municipality of Belgrano from fines imposed for walking across the line.

BRAZILIAN TRADE.—According to official statements presented by the Custom-house in this city the imports during the financial year 1 61 1862 into Buenos Ayres have been 38 vessels with and aggregate amount of 1369,924 patacons value.

AMERICA.

(THE TIMES TELEGRAM.)

New York, March 25th.

Gold, which during the morning had fallen nearly 6 per cent., rose 3 per cent. on the publication of the news from Fort Hudson, and at the close of business sold at 145 1/2. Rates vary every five minutes. There was a general breakdown in the produce and mercantile markets, resulting in large depreciations in value. Breadstuffs and provisions were the first to feel the effects, and holders had to grant considerable concessions to effect sales. Other articles, such as of produce, cotton wool, tobacco, and coal, were lower. There had been a decline in gold not justified by any change in the financial prospects of the country. It is asserted by the agents of the Government that the South must speedily yield from want of food, and that a series of victories within the next two weeks, will effectually crush the rebellion. The strikes among the workmen for increased wages are spreading in all trades of the city. The dock labourers employed by the Erie Railway Company struck work yesterday morning, on the pleas of sums of them were supplied 1-7 instead of 1-8 per ton. This substitution caused great indignation, and the augmentation of wages was refused. No offer of compromise was made by the company, but rejected by the workmen.

Official reports, via Cairo, of operations before Fort Hudson, confirmed the Confederate accounts that only one vessel of Commodore Farragut's squadron, the Hartford, the commodore's own ship succeeded in running past the port; that the Mississippi was burnt, and all the other vessels repulsed. The Hartford is at Warrenton, 12 miles down the stream, in danger of destruction by the Confederate gunboats Red and Queen of the West. The Federal loss in the various engagements is exceedingly severe and unintelligible. The Florida called at Barbadoes on the 24th ult., for coals, and remained there for 24 hours. She also left port she was seen to set fire to three vessels which were some ten miles distant from the coast. Lat. 7 n. Long. 57 west, supposed to be the Vanderbilt, was observed in pursuit, but the Florida made good her escape.

CHINA & JAPAN.

The telegrams received from the East are still unpleasant. The latest from China—February 22—reports that the Imperialists, aided by Ward's American force, had successively defeated with a loss of 500 men. We suspect they were assisted in this action by European officers, which always fails. The latest from Japan announces that the British Legation at Jeddo had been destroyed by an European mob. Japanese : no fatal accident had resulted.

Birth.

On Saturday, 16th instant, the lady of Frederic Elortondo, Esq., of a son and heir.

Death.

On the 16th inst, Mr Moses Leary native of Wexford, Ireland, in the 40th year of his age. Deceased resided for many years in Buenos Ayres R.I.P.

MISCELLANEA.

CONTRARIES.—Steele wrote excellently on temperance—witness his Lying Sailing, who declaimed against the licentiousness of the age, was himself a debauchee; Johnson's essay politeness is admirably, but he was himself a perfect bear; the gloomy verses of Young give one the blues, but he was a brisk, lively man; the "Comforts of Life," by R. Heron was written in prison under the most distressing circumstances; "The Miseries of Human Life" was, the author declared, written in a drawing room, where the author was surrounded with every luxury; all the friends of Sterne knew him to be a selfish man, yet, as writer, he extolled in pathos and charity, at one time hesting his wife, at another wasting his sympathies over a dead donkey; Swift was a dispenser of poverty on a table formed of solid gold, with millions lent out at usury; some of Hoadly's comic sermons were written in lodgings and amidst distress
